'round town

with Betty Allen...

☆

At the Taxpayers meeting Monday night which featured a discussion of incorporation, an interesting question was asked Mrs. Ruth Blake, Los Gatos city clerk. The question was: "To your knowledge has any area which incorporated ever regretted it?" Mrs. Blake, who knew all the answers, knew that one too. She reported that of all the incorporated cities in California only 36 voluntarily dissolved the incorporation. Of these 18 were merged with other incorporated areas, and for the other 18 the reasons hinged on population shifts, and in almost every case were mining or boom towns.

★ ★ ★

Campbell would, in the event of incorporation, discover a latent pride which, if developed, could build a town far superior to the one we now have. It might cost a few cents more per person in taxes, but the results would more than justify the expense and, as Mrs. Blake said, after you've lived on a paved street you wouldn't go back to your dirt road.

★ ★ ★

At one time the property by the railroad was leased from the Southern Pacific for one dollar a year and a tiny park kept there. The cannery workers ate their lunches there, and it gave the town a pleasant appearance. What do we have now? One Saturday not long ago there was a constant disturbance there in the unkempt weeds . . . a "bottle" party . . . a crap game . . . a fight.

★ ★ ★

At the panel discussion of youth leaders in San Jose last week it was reported that Campbell has the largest slum area of any town this size in the vicinity. And what do we do about it? We let the county worry and consequently not much gets done. If we were incorporated our city building inspector could prohibit many of the conditions which make our "slum" area so bad.

★ ★ ★

Los Gatos with only 2000 more people than we have maintains four police officers. We have none. With police supervision, tavern owners would be forced to conduct orderly places or lose their licenses. The dog nuisance which is becoming intolerable could be stopped quickly by dog licensing. We could get our teeth into our problems and actually do something about them.

★ ★ ★

It stands to reason that all the other cities which have incorporated would not do so unless the ends justified the means. Events are happening so rapidly and the tempo of the town increasing so much that incorporation is going to be a necessity and not a luxury.

★ ★ ★

The welcome news that the Board of Supervisors has sanctioned an industrial zoning plan for Campbell (this could have been done long ago had we been incorporated), means that the increased assessed valuation which new industries will bring would lower the individual tax.

★ ★ ★

It is a time for action—unified action, free of petty prejudices and personal criticisms. If we work together we can achieve a future for Campbell which will justify its potentialities.

Wedding Planned For July

Campbell friends of Miss Jean Ross will be interested to learn of her wedding plans. The ex-Wac will leave July 12 by plane for Long Branch, New Jersey, where she will be married to Franz Gaskill, recently returned veteran. Since her discharge from the service, Miss Ross has been making her home in Willow Glen.

Every week a name will be drawn from our list of new subscribers and printed in the classified ad column. The person whose name appears there may receive two free passes to the Campbell Theater by calling at the Press Office. Look and see if your name is there!

Summer Recreation Plans Made

Dean Close of Los Gatos has been chosen by the Campbell Community Youth Council to head the summer youth program for the town. Under his direction the program will be expanded into a community program designed to interest adults as well as children. Under his direction will be the third annual playground on the high school field which opened Monday and the activities of the Roost, youth organization for high school age boys and girls.

The new community program will introduce softball games, tennis tournaments and other athletic pursuits in which anyone may take part.

Close, experienced in youth work, is a San Jose State student, and a recently returned veteran. Enthusiastic over the summer's work, he plans on developing several ideas intended to increase interest in the program.

In charge of the newly-opened playground is Miss Mary Lou Blair, a popular and well-known Campbell girl, who is a student at San Jose State College also and is well experienced in playground work.

Children between the ages of 6 and 12 are eligible to partake of the playground activities which include handicraft, supervised play and games, and a library. Hours at present are from 9 a. m. to 5:30 p. m.

Chamber Quorum Has Busy Meeting

A bare quorum at last week's Chamber of Commerce meeting tackled several touchy subjects. Due to the absence of the secretary, the minutes were not available and members were not able to remember when the petition for widening Campbell Avenue was recommended by the Chamber. This was laid over until the next meeting.

It was unanimously voted that the Chamber endorse incorporation for Campbell; also unanimously passed was a decision for the directors to be informed by letter that, unless they indicated their intentions to attend the meeting more regularly, their places on the governing board would be filled by other members.

Among the letters read was one from Martin Walsh complaining of the dog nuisance in Campbell. The group moved to write the Board of Supervisors asking that something be done.

Children Presented In Piano Recital

Tomorrow evening at 8 o'clock in the Country Woman's Club Room in the Library Building, Mrs. Kathleen S. Bergeron will present her students in an informal piano recital. The program will include a wide variety of piano numbers ranging from Chopin and Handel to "Turkey in the Straw".

Pupils taking part in the recital are Katharine Bower, Pauline Cleveland, Janet Franceschini, Laura Gordon, Janis Henley, Heather Howard, Joline Howard, Mary Little, Martha Long, Elizabeth Ribble, Philip Robba, Christine Sells, Terry Tindall, Nancy Titus, Billy Ward, Marcia Ward, with Sandra Howard acting as page girl.

Sister Visits Here

Mrs. C. G. Cromwell and her daughter, Helen, of Topeka, Kansas, are house guests at the home of Mrs. Cromwell's sister, Mrs. H. E. Peck. When she returns home early next month Mr. and Mrs. Peck will leave for a fishing trip in Southern Oregon.

David May Voted Director Of Hunt Foods

Hunt Foods, Inc., recently announced that David May, prominent young department store executive, was elected a director of Hunt Foods at the annual meeting of stockholders on June 19.

Mr. May is vice-president and on the board of directors of The May Department Stores Company, and in charge of style merchandising for the company's Los Angeles and Wilshire stores. He is a graduate of Stanford University, has taken an active part in the department stores' activities since joining the company, and was appointed vice-president in 1941.

Other Hunt directors re-elected for another year include M. E. Wangenheim, president; Frederick R. Weisman, executive vice-president; W. St. B. Eustic, vice-president; Herbert L. Lantin, and Theodore Weisman. Norton Simon was re-elected chairman of the board. The company also announced the recent election of Edward Mittelman as secretary.

The stockholders were informed that Hunt is this year anticipating the greatest production and sales volume in company history. The results of the recent expansion program are now taking effect, giving the company a well-rounded food line of more than 90 products as well as greatly increased production of fruits.

New items soon to come out under the Hunt label will include dried fruit products from the recently acquired plants of Guggenhime and Company, and tomato products, peas and frozen vegetables of the Rocky Mountain Packing Corporation, under working control of Hunt. A new high speed production line has been installed at Hunt's large Hayward plant to speed up the production of tomato sauce as the company's spearhead item. Because of this, and the production of other tomato products, Hunt probably is now the largest user of tomatoes on the Pacific Coast.

The company plans to conduct a strong sales campaign in the New York and certain other Eastern markets this fall, backed up by an aggressive advertising campaign in the Metropolitan New York area.

New Radio Service Opens

Recently opened is the new Hamilton Radio Service at Hamilton and Meridian in the new store building adjacent to Avila's Market and the House of Riches. Operating the new business are A. F. Avila, brother of groceryman Jimmy Avila, and F. B. Greeley.

Both men are experienced in radio repairing, Greeley having operated his own business in Houston, Texas, and Avila gaining his knowledge by working at the Star Radio Store in San Jose.

As soon as merchandise is available, the new store will handle radios, refrigerators and washing machines.

Summer Vacation Planned

Mr. and Mrs. D. H. Cramer will leave next week for an extended vacation which will take them first to Lake Tahoe, then to Moscow, Idaho, where they will visit their son and his wife, Dr. and Mrs. Harold Cramer. After leaving Moscow they will spend considerable time enjoying the beauties of Banff, Lake Louise and Jasper Park. On the return trip they will visit Vancouver and Victoria.

An unprecedented early beginning of canning operations started this morning at Hunt Foods, Inc., with the arrival of apricots from Brentwood. Workers had expected to start work after July 4th, but were summoned hurriedly yesterday.

Constable Race To Be Run Off

The importance of each and every vote has been demonstrated in the close race for constable here. In unofficial figures, complied by The Press staff the day following the primary election, Harry Evans had a majority of 13 votes over his two opponents, Ethan Lanphear, incumbent, and L. "Dad" Lee.

Later, when the official count was made, Evans had only the narrowest margin possible—a one vote majority. Seventeen absentee ballots were as yet unaccounted for and the suspense was continued until June 21 when the absentee ballots were counted.

Of the 17 ballots cast by absent voters Lanphear received 13 and Evans four, thus losing Evans his majority and necessitating a runoff in November.

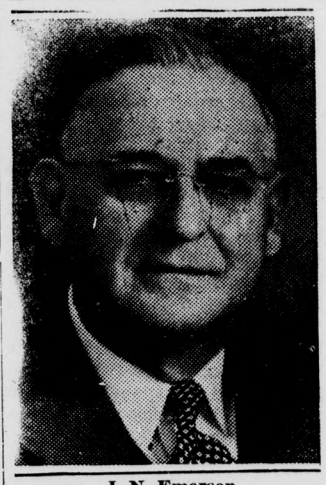
The combined vote cast for the office is as follows: Evans, 697; Lanphear, 563, and Lee, who received no absentee votes, 142.

Also to be run in November will be the contest for local justice of the peace, for the incumbent, John D. Blaine, missed a majority by 70 votes and will run against his closest competitor for the position, Martin Walsh.

Official count for the justice race was as follows: Blaine, 669; Walsh, 588; and Weeks, 151.

Kiwanis Elect New International President

This is the story of J. N. Emerson, prominent West Coast merchant and retail store owner, who last week completed a 24-year climb of the service organization ladder to become president of Kiwanis International, which



J. N. Emerson

embraces more than 163,000 business and professional leaders in some 2,400 communities throughout the United States and Canada.

A charter member of the Kiwanis club in his home city of Pullman, Wash., Emerson has held practically every office, served on a large number of district and international committees and directed many activities during his long career. He believes that Kiwanis is an organization built on personal service and backs this contention by his activities and a record of 17 years of perfect club attendance.

As the successor to Hamilton Holt, widely known Georgia granite and marble producer, Emerson will move the president's office from Macon to Spokane, although Pullman will continue to be the president's club. His counsel and administrative assistance will come from the new officers elected at the organization's 1946 Victory convention and members of the board of trustees.

Officers elected this year at Atlantic City follow: Dr. Charles W. Armstrong, Salisbury, N. C., physician and health officer, and John M. Burden, Toronto, Ont., barrister and solicitor, vice-presi-

Incorporation Information Given by Los Gatos City Clerk

Before an interested and enthusiastic audience at the Taxpayers' meeting Monday evening, Mrs. Ruth Blake, Los Gatos city clerk, dispelled bugaboos concerning incorporation which had largely sprung from lack of information.

Speaking with a sure knowledge of her subject, Mrs. Blake's talk was liberally interspersed with questions for which she usually had the answers. Most questions related to the financial apects of the contemplated action.

Stressed were the sources of revenue available to incorporated cities—such as the in lieu tax, alcoholic beverage tax, business taxes, franchise, and of course the all important property tax.

Mrs. Blake estimated the average property tax at $24.00 per year, which is slightly higher than Campbell's would be. The lowering of the County tax rate would depend upon how many functions the incorporated area wished to take over. In addition to the lowering of the County tax rate, Mrs. Blake informed the gathering that telephones, P. G. & E. service, and insurance rates would all be lowered after incorporation to offset the added tax increase.

Members of the audience were interested in the cost of the Los Gatos police and fire departments and Mrs. Blake was able to give all the figures. With a population of 5000, Los Gatos maintains four police officers and two patrol cars. The fire department has two paid men in addition to the fire chief, and volunteers are paid a small amount for each fire. Los Gatos also has a system of fire alarm boxes to facilitate turning in alarms.

All streets in new subdivisions must pass city requirements, and any people doing work for the city must be bonded to insure the correctness of that work.

Incorporation would have no effect on the school system since it is maintained by the State and County.

Campbell, because of its size, would be a city of the fifth class. In order to incorporate a petition would have to be signed by 25 per cent of the property owners representing 25 per cent of the entire land value in the area to be incorporated before an election could be held. Councilmen would be elected who would choose the mayor among their number, and then appoint a clerk, treasurer, police judge and police chief.

After Mrs. Blake finished a vote was called for by Chairman Ray Gilpatrick, to test the feeling of the group. It was overwhelmingly in favor of incorporation.

The boundary lines for the proposed incorporation, set up by the Taxpayers' Association for the purpose of discussion, and published a short time ago in The Press, were felt to be encompassing too large an area and it was decided to decrease the area as a first step toward the goal.

Campbell To Have Industry

Announcement Monday by the Board of Supervisors that the County Planning Commission was being instructed to prepare a suggested plan for industrial zoning in Campbell was a feather in the caps of those Campbell citizens who have fought long and hard in this issue.

The large group of residents who took time out of their businesses last week to attend in a body the hearing before the County Supervisors are now entitled to feel rewarded for the effort.

After hearing Campbell spokesmen the Board visited the area and on Monday made its recommendation to the Planning Commission.

Originally requested was a rezoning for property owned by M. S. Keesling on Hamilton Ave., adjacent to the railroad tracks. The Board apparently feels, as does the Chamber of Commerce and the Taxpayers' Association, that this site, to be occupied by a dehydrator if zoned for industry, should be considered as part of a larger plan which would rezone considerable property along the railroad tracks, thus making available future industrial sites.

The motion for the zoning plan was made by Supervisor Joseph M. McKinnon.

Redwood City All Set for Rodeo

Additional features for the Fourth of July rodeo and celebration in Redwood City July 4, 5, 6, and 7, were announced this week as attention turned to the end of the queen contest and the coronation ball to be held Saturday night.

Following an extremely successful barbecue last Saturday attended by more than 800 persons, committeemen arranging the Independence Day fete were enthusiastic about prospects of huge crowds at the four-day show, according to Kenneth L. Bowen, secretary-manager. Redwood City was gaily decorated and citizens in jubilant mood were wearing brightly-colored shirts, "ten-gallon" hats and other garb of the early West.

Besides the rodeo and horse parade daily at 1:30 p. m., attractions now planned for the celebration include free amateur contests on Friday and Saturday evenings at 7:30 o'clock which are open to any Peninsula amateur entertainer. Cash prizes of $10, $7.50, $5, and $2.50 will be awarded the first four winners each night. Entry may be made at the Peninsula Celebration Association office in the Redwood City city hall.

Other features of the celebration include the downtown parade on July 4 at 11 a. m.; a free $1000 display of aerial fireworks at dark that evening; free dancing each night, and continuous entertainment from noon to midnight in a score of concessions operated by civic organizations. Free pony rides will be given children from noon till 6 p. m. daily.

All will take place at the new Recreation Center, end of Vera Avenue west of El Camino Real.

BREAD

The bread shortage is causing us all to think more of that more or less taken-for-granted article—our daily bread. Bread has always been used as a symbol of man's religious rites, his generosity, his struggles.

With the devastating famine in Europe we think of bread as a symbol of brotherhood and as our means of sharing God's bounty. We recently read a poem which says this beautifully. Unfortunately we are unable to give the author's name since we have not been able to discover it—but here is the simple and beautiful poem:

Be gentle when you touch bread,
Let it not be uncared for, unwanted—
Too often bread is taken for granted.
There is such beauty in bread;
Beauty of sun and soil,
Beauty of patient toil;
Wind and rain have caressed it,
Christ often blessed it—
Be gentle when you touch bread.

OUR FLAG

The flag of allegiance,
The flag that we adore,
With red from blood, white from snow,
And blue from Heaven's store.

The flag that led to glory,
On paths, by heroes trod;
The flag that gave us freedom
The right to worship God.

Our forefathers loved it,
The red by martyrs shed,
The white that stood for purity
With blue from skies o'erhead.

We stand and pledge our loyalty,
To the fairest banner on earth;
The flag that floats in freedom
O'er the land that gave us birth.

We rise to do it honor,
With soul, and mind, and heart,
With pledge that in it's guarding
Each one will do his part.

—Clara Beebe Baldwin.

SENATE MONSTROSITY

WASHINGTON.—Seldom has a Senate committee been so loath to put its name to a piece of legislation as the Senate banking and currency committee which finished sabotaging the price control bill recently. About all that was left of the bill was its name.

When it came to signing it, New York's Senator Wagner, chairman of the banking and currency committee, flatly refused. He pointed out, in a closed-door session, that he had opposed the emasculating amendment and would submit his own minority report.

Senator Taft, who did more than almost anyone to tear the bill to pieces, also hesitated. He said he had his own bill which he wanted to introduce.

Finally someone proposed that the senators' names be signed in a circle, so the public could not tell who signed first.

"It reminds me," said Kentucky's Alben Barkley, "of the young man who shot his mother and father, then appealed to the court for leniency on the grounds that he was an orphan."

NOTE — Finally, Senator Barkley agreed to report the gutted OPA bill to the Senate, but accompanied by a stinging criticism of the way the OPA had been virtually destroyed.

PATIENT LAUNDRY LEW

Secretary of Labor "Laundry Lew" Schwellenbach is a patient man. He learned the virtue of patience as a Spokane laundryman when he had to handle customers' complaints about frayed collars and lost shirts. Patient as he is, Lew has had a tough time with his boss in the White House during the maritime strike negotiations.

Shortly after the talks began, Schwellenbach called on the unions, the shipping people, and government officials to say nothing which would arouse feeling and imperil the negotiations. The very next morning, however, Lew's boss in the White House did exactly the opposite by announcing plans to use the Navy to break the strike. This, of course, put the ship owners in a favored position. They were no longer under any compulsion to settle before the strike deadline. When patient Laundry Lew heard this, even he hit the ceiling.

Then the Navy announced, with White House backing, that it was calling on its reserves and volunteers to break the strike. Again this played into the shop owners' hands; again the Secretary of Labor was upset.

Finally, he sent Assistant Secretary of Labor John Gibson to the White House with a personal appeal to the President to refrain from prejudicing the negatiations. Truman agreed, issued a proclamation saying the government hoped for settlement, did not want to be put in the position of breaking the strike.

Conventions and Prosperity

San Francisco has a bumper crop of conventions this year. From now until Oct. 15, not a week will pass without a convention, and the calendar for the remainder of the year is rapidly being filled. The list includes such outstanding national gatherings as the American Medical Association July 1 to 5, the Shrine July 23-25, and the American Legion, Sept. 29 to Oct. 4.

The conventions typify the way in which a city like San Francisco serves its surrounding area and simultaneously contributes to the prosperity of that area.

Delegates to the medical convention alone will spend in the neighborhood of a million dollars while they are in San Francisco. That money will be spent not for durable goods, but for things like food and entertainment. Thousands of chickens, thousands of plates of asparagus will be served to the delegates. San Francisco doesn't raise chickens and asparagus. But its surrounding area does, and the money that pays for those chickens and asparagus will go into the pockets of the agriculturists of Northern and Central California.

Why will these great national conventions be held in San Francisco, instead of in the East? One reason is that San Francisco, like ancient Athens, can provide a meeting place. To illustrate, next month the city will turn over to the medical convention, for meeting and exhibit space, public buildings representing an investment of $15,000,000. San Francisco's many hotels will be able to provide accommodations for the delegates.

Really unusual and combining the practical with the aesthetic are the hand-carved mahogany hors d'oeuvre dishes at the House of Riches. The designs are charming and the quality of the workmanship is excellent. Some boast small carved spoons to match which would be most handy for serving . . . by their naturalness they blend perfectly into patio life and seem typically Californian.

In keeping with the summer mood are Rachel's new brunch coats . . . the exciting feature of it is that they are short . . . no sweeping the floor with a cumbersome long skirt in the mornings. They come in seersucker which makes them tops in any practical lady's eye and they are in cheerful floral prints with either blue, beige or pink backgrounds. Very special and appealing are the new nightgowns there. Made of chenille finished jersey they're as soft to the touch as a kitten's ear . . . the pattern is a dainty rose sprigged one and they are fashioned with tiny sleeves and square necks.

Garden Wedding

"Old Orchards", the attractive home of Mr. and Mrs. Charles Pace on the north side of La Rinconada golf course, was the setting for a charming garden wedding last Sunday when Miss Betty Eileen Dreisback, daughter of Mr. and Mrs. W. E. Dreisback, became the bride of Leo M. Park, son of Mr. and Mrs. James Park. The Rev. Lawrence Osborne performed the ceremony.

Given in marriage by her brother, Leslie Dreisback, the bride wore a traditional white gown with a finger-tip veil and carried a bride's bouquet in which an orchid formed the center.

Her matron of honor, Mrs. Bob Miller of Los Gatos, wore a gown of powder blue. Best man for the rites was Bob Miller, husband of the matron of honor.

Following the ceremony guests enjoyed a reception in the patio which centered around the wedding cake. For her daughter's wedding, Mrs. Dreisback chose a grey ensemble, and the bridegroom's mother was gowned in lavender.

A beige suit with beige hat and snakeskin shoes and bag was the choice of the bride for her going-away outfit. The young couple plan a wedding trip to Oregon before settling in their home at Alma.

CHRISTIAN SCIENCE
"Christian Science' 'is the subject of the Christian Science Lesson-Sermon for June 30th, with the Golden Text from Isaiah: "Ho, every one that thirsteth, come ye to the waters, and he that hath no money; come ye, buy, and eat; yea, come, buy wine and milk without money and without price" (55:1).

Included in the sermon are these citations:

John 14:1: "Let not your heart be troubled: ye believe in God, believe also in me."

"Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Science is an emanation of divine Mind, and is alone able to interpret God aright. It has a spiritual, and not a material origin. It is a divine utterance,—the Comforteth which leadeth into all truth" (p. 127).

Portland Visitors Enjoy California

Miss Dorothy Hubbard and her mother, Mrs. Ida Hubbard, left Campbell today after their first visit in California. They have been the guests of Mrs. Betty Mattix, Hazel Ave., and, accompanied by Mrs. Mattix and her mother, Mrs. Pearl Whipple, Railroad Ave., have been busy sightseeing. Interested in the old missions, they have viewed the historic and beautiful ones at Santa Clara, Santa Cruz and the famous Mission Dolores in San Francisco. The San Francisco zoo, the beach and ather points of interest have found favor with them.

The Hubbards make their home in Portland, Oregon, where Miss Hubbard is an assistant in pharmacy at the Providence Hospital; she and Mrs. Mattix have not seen each other since 1932, when they graduated together from high school in Spokane, Washington.

So enthusiastic are the visitors over Campbell, that they plan to live here.

Lots Burned

Over the weekend the Campbell fire department burned several lots which were adjudged fire hazards or at the request of the owners. The trucks now boast new hoses which firemen installed Sunday.
